

# Green City Events eco-activities guide

Our selection of eco-activities are perfect for community events, festivals, public engagement, road shows, or even parties and can be tailored to fit your theme or message. You can choose more than one activity for your event and split them across the day if you prefer. Just browse the list below and get in touch to discuss what will work best for your event.

We can also combine these activities to deliver a 1-2 hour workshop to a smaller group or develop a dedicated themed session to suit your needs. Most workshops are suitable for young children, families and adults, however some require a little more adult support and are more enjoyable for a certain age group. We will make sure we have chosen the right activities for your audience.

Activity	Description	Half day rate	Full day rate
<b>Seed bomb making</b>	Get messy making seed bombs from clay, compost and seeds and learn how plant them and care for them.	£170.00	£250.00

**Half day** – our half day rate applies when a workshop runs for up to 4 hours including set up, pack down and travel. The price includes all materials, delivery by a fully trained tutor, provision of risk assessments and public liability documents.

**Full day** – our full day rate applies when a workshop runs from 4-8 hours including set up, pack down and travel. If you think your workshop will run for longer than 8 hours then we can discuss pricing. The price includes all materials, delivery by a fully trained tutor, provision of risk assessments and public liability documents.

For outdoor events we are able to bring our own event grade green gazebo for a small additional fee or for larger events you may be interested in hiring our beautiful Eco Tent.

Please note we may be able to offer discounts for multiple bookings or for small local community groups with limited funds. Travel expenses are not included in these prices, however there is no charge for events within Cardiff.
